## How it works

The Bulk Delete Attachments app empowers you to effortlessly select and delete all the attachments associated with a specific object.

## Step 1

Enter a record page (it works with any HubSpot object) with at least one file attached to the record, and click the "Select Files" button in the Bulk Delete Attachments CRM card.

• If a record has no files attached, the button won't be visible.

#### Step 2

Select all the files you want to delete and press the "Delete selection" button.
